Licensed by the State of California, the Preschool Program is designed for children ages 2 - 5 years. The year-round program is offered on a daily basis Monday through Friday. The program operates from 8:00 a.m. - 1:00 p.m. I create an environment that provides children with the opportunity for full intellectual growth and social development. The program accomplishes this by using a developmentally-appropriate curriculum, which will lay a foundation for all future learning.

I have over 20 years' experience working in a licensed Preschool as both a teacher and director. I am trained in areas of Early Childhood Education, child development, supervision, curriculum, First Aid and CPR. I have my certificate and Associates Degree in Early Childhood Education and my Bachelors of Arts in Psychology. I am also currently involved with the Natomas School Readiness Collaborative.
